Profile

Final-year Software Engineering student from Tunisia with strong foundations in AI, machine learning, and data engineering. Experienced in building LLM-based applications, RAG systems, and full-stack AI solutions. Highly motivated to pursue advanced, multidisciplinary studies in Data Engineering and Artificial Intelligence within an international environment.

Professional Experience

Attoflow Consulting <i>AI Engineer Intern</i>	02/2026 – Present Tunis-Remote
- Built an LLM layer that translates natural language into validated JSON to orchestrate database operations and automation workflows. - Engineered prompts enforcing 25+ intent classifications with strict validation rules. - Implemented 25+ API endpoints and an automation engine supporting 6 triggers and 9 action types.	
Themison <i>AI Engineer Intern</i>	11/2025 – 02/2026 copenhagen · Remote
- Designed knowledge graph schemas (15+ entities, 20+ relationships) for enterprise document understanding. - Developed a Graph RAG architecture combining knowledge graphs and vector embeddings for advanced retrieval.	
Attoflow Consulting <i>AI Engineer Intern</i>	06/2025 – 08/2025 Tunis- Remote
- <i>Architected and implemented</i> an agentic RAG system using LangGraph integrating vector databases ChromaDB and multi-agent orchestration, enabling secure, context-aware retrieval with optimized LLM interactions for reliable responses.	
AllNet Company <i>Part-Time Software Engineer</i>	01/2024 – 12/2024 Souss-Hybrid
- Enhanced company websites by developing new features and functionalities using Symfony PHP framework, improving user engagement and business capabilities - Designed a context-aware chatbot utilizing the LLaMA 3 model and advanced prompt engineering techniques.	
<i>Full-Stack Developer Intern</i>	06/2023 – 08/2023 Souss-Hybrid
- Engineered a Symfony-based newsletter application following MVC patterns for user management and automated email services.

</

Education

Software Engineering <i>Higher Institute of Computer Science and Multimedia of Sfax (ISIMS)</i>	2023 – present
Integrated Preparatory Program <i>Higher Institute of Computer Science and Multimedia of Sfax (ISIMS)</i>	2021 – 2023
Baccalaureate in Mathematics <i>Ksour Essef High School</i>	2021

Certificates

- Efficient Large Language Model (LLM) Customization (NVIDIA) 

- Microsoft Certified: Azure AI Fundamentals 

- IBM AI Engineering Professional Certificate 
- Generative AI for Software Development 

- Building RAG Agents with LLMs (NVIDIA) 

Skills

- **Core AI/ML:** Deep Learning, NLP, LLMs, RAG
- **Tools & Frameworks:** PyTorch, TensorFlow, LangChain, LangGraph
- **Software Engineering:** OOP, Design Patterns, Problem Solving, Agile/Scrum, REST APIs, Git
- **Development Concepts:** Backend Development ,Frontend Development with React and Angular, Data Handling & Processing

Organizations

Competitive Programming Club at ISIMS	2023 – 2025
Junior Chamber International (JCI) in Ksour Essef	2022 – 2023
National Theme Advisor	

Languages

Arabic (Native), French (Fluent), English (B2 (IELTS))
